Green's Mix

Tested by AgSource Harris Laboratory of USA

Green's Mix ORGANIC FERTILIZER FOR TOPDRESSING

- 180 days composing process to ensure the plants base organic materials is 100% decomposed.
- Heat treated, free from unwanted pathogen and debris.
- All nutrients in organic form which is slow release.
- Idea to be mix with sand at the ratio of 1:10 for greens topdressing and divot repair.
- Encourage the growth of the friendly bacterial in the turf growing medium.
- C:N ratio of 9:1 and organic carbon >25% which indicate high nitrogen in the organic form which will slowly release out.
- The high soluble salt indicates a lot of dissolved nutrients for the healthy grow of turf.
  Tested by the well-known AgSource Laboratory of USA.

Benefits :

1. The fully decomposed and heat treated organic which is free from debris and disease pathogen
2. The low C:N ratio means the organic is stable and safe to use.
3. Natural organic will enhance the fertilizer retention in the growing medium.
4. Improve the structure of the growing medium therefore increase root depth and density.
5. Reduce the impact of fast soil hardening caused by the chemical fertilizer.

Technical Analysis :

Description	
pH	6.5
Organic matter	>50%
Soluble salt	>30 mmhos/cm
Carbon: Nitrogen Ratio	9:1
Total Carbon	>25%
Total Nitrogen	3.0%
Available Phosphate (P_2O_5)	1%
Available Potash (K_2O)	1%
Iron	15 ppm
Zinc	6 ppm
Manganese	3 ppm
Moisture	25%

Source: Plant base and enrich with enzyme and friendly bacterial.

Packing :

- 20 KG per bag
- Mesh Size 100

IDEAL GROWING MEDIUM

Application :

1. **Green Topdressing or New Planting**
   Mix 1 part of **GREEN'S MIX** with 10 parts of sand and ensure mix well. You may apply the **GREEN'S MIX** on green evenly, top-dress with sand and drag with dragmat until the sand evenly into the turf.
2. **Divot Repair**
   Mix 1 part of **GREEN'S MIX** with 5 parts if sand for divot repair
3. **Landscape Plants**
   Apply 500g to 1 kg **GREEN'S MIX** as organic fertilizer. Ideal for chemical sensitive plants.
4. **Planting of New Tree / Palm**
   Mixed 1 part of **GREEN'S MIX** with 5 parts of soil as planting medium.

Strorage and Use :

- **Store in a clean and dry place**
- **Use only clean and dry spreader.**
- **Do not leave unused product in spreaders.**
- **Keep away from foodstuff and children.**
